

Think it! Draw it! Make it!

8 Week After-School Program for Kids Ages 5-12

Take a journey to the farthest reaches of the imagination while learning about the ocean, the rainforest, Mars, and a futuristic city, and more!

Use the design thinking process to solve real-world problems in these different environments.

Experiment with Crayola® products and many art techniques like sculpting, storyboarding, collage, and mixed media.

Discover design careers like graphic design, universal design, urban design, and product design.

thinking process

Travel the World and Discover Design Careers with Crayola® Products

COMIC BOOK HEROES

Costume Fashion Design

We're dressing up our very own superhero! Superheroes look their best when drawn in action poses, with faces that tell their story. We have superhero templates and fashion textiles to kick-start the ultimate comic book star!

PITCH YOUR PRODUCT

Practical Product Design

Anyone, at any age, can be a business entrepreneur! We're learning how to turn an idea into a retail product. Let's design and build a prototype of the perfect tool that everybody needs.

GAME ON!

Board Game Design

In this class, we will dive into board game design! Our mission is to create a board game that teaches players about the wonders of ocean life. We'll design the game board, cards and pieces, and then challenge each other to play!

FUTUREVILLE

Urban Design

We're designing a city of the future! How will we handle the traffic flow of all those who work and live in the city? Our mission is to create a pop-up vision of a future metropolis whose citizens get around safely on foot, on wheels, and in flight!

PICTURE PERFECT

Movie Poster Design

Hooray for Hollywood! We have been challenged to create a poster to promote a movie. We will learn the elements of graphic design to create exciting, eye-catching posters.

UNIVERSAL TREEHOUSE

Designing with Universal Accessibility in Mind

We're making the rainforest our home for a year! We'll be designing a treehouse where three scientists will live and work. The mission involves making our treehouse animal-proof and wheelchair accessible

MARS HABITAT

Martian Habitat Design

Our mission is to design a habitat for a Martian colony. We will explore architectural design to imagine a practical home for people living on Mars. Then, we'll sculpt our designs to create our own 3-D models.

WILD ANIMATION

Animation Design

Let's travel into the woods! We'll design a storyboard to spread the word about protecting this cool ecosystem! We'll also make a flipbook to see how film animators connect images to create moving pictures.

Crayola® Artist's Passport

Travel the World through Art!

**8 Week After-School Program
for kids age 5-12**

- Embark on an around-the-world cultural adventure — explore far-off places and learn about the people who live there, from the Americas to Polynesia, from the cosmopolitan to the countryside.
- Experiment with Crayola® products, while trying art techniques developed by local artists and artisans.
- Make different masterpieces each week such as drums, masks, canvases, prints, buses, and more!
- Bring the unique creations home and build a globally-inspired art gallery.

Explore Our Class Themes

AUSTRALIA

Aboriginal Dot Art

We are going to the Land Down Under! Enter Australia's Western Desert and see how family stories are carried from one generation to the next. Every family has its story, and we will pass on our personal tales by painting with the dot art technique used by Australia's aboriginal peoples.

EUROPE

Block Printing

World travel is great for mixing up new ideas. Block printing concepts from the east were brought to the west, and the art of wallpaper began in Europe. Let's admire European wallpaper styles and then design and print our own block patterns.

AFRICA

MUD ART

Let's take a closer look at textiles and their designs — the symbols, patterns and borders on a cloth can be used to tell stories. We'll use stencils of creatures that are meaningful to the people of Korhogo to create a wall-hanging using earthen colors.

Animal Sculptures

It's time to turn a fantastical dream into a fantastic work of art! Let's go to Oaxaca, Mexico and learn the story of the alebrije dream and how it unleashed a whole new art form. We'll take our creativity to the wild side by blending fauna and flora into amazing animal sculptures.

TRUCK ART

We're driving into a kaleidoscope of colors when we visit Pakistan! The roads are full of decorated vehicles, each one made to its driver's liking. We will observe the basics of Pakistani truck art, and apply what we learn to create our own eye-catching model buses.

PAKISTAN

Imperial Jeweled Eggs

We're sneaking a peek at a collection of treasures made for the royalty! Over 100 years ago, the Russian czar had the jeweler, Fabergé, create ornate egg-shaped gifts with precious metals and gems. We will learn how to design and sculpt an eggs-travagant gift of our own!

CHINA

RATTLE DRUM

This class cultivates the art of writing with Chinese calligraphy. We will learn the importance of movement and flow with a calligraphy-style brush technique, and turn ideas into images. We'll preserve Chinese characters on a rattle drum, called a Bo Lang Gu, to play at home!

TIKI MASKS

Let's set sail for the South Pacific! The people of the Polynesian islands believed that they needed to stay connected with nature in order to live comfortably. They created "tikis", or carvings, to connect with personifications of the forces of nature. We will think about our connections with nature and design tiki masks for our homes.
